GeoSLAM Connect Viewer

Legacy Local Connect User Creation

Introduction

MyGeoSLAM user accounts are not created anymore. To use the GeoSLAM Connect Viewer it is necessary to create a legacy local user account.

This guide aims to help you create this local account.

Prerequisites

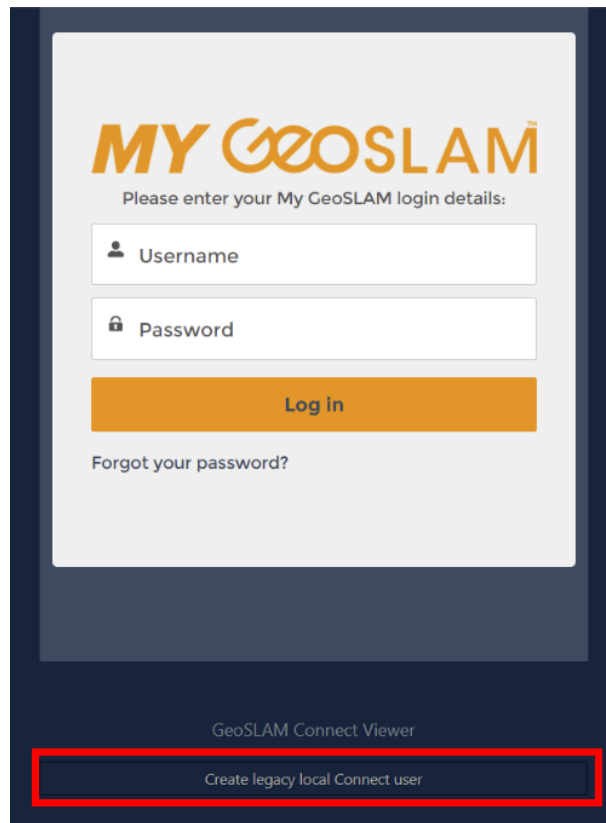

1. GeoSLAM Connect Viewer 2.3 and GeoSLAM Licence Manager installed
2. A valid and active licence

Guide

If GeoSLAM Connect Viewer is not already installed, please follow the steps found in the document named "GeoSLAM_Connect_Software_Guide.pdf" found in the zip archive you have previously downloaded, from page 5 of that document.

From the Login to GeoSLAM Connect Viewer, please skip and follow the instructions hereunder :

1- From the GeoSLAM Connect Viewer, click on the button named "Create legacy local Connect user"

2- On the next window enter your details :

- Username : Enter a username of your choice
- Password : Enter a password of your choice
- Name : Enter your name
- E-Mail : Enter you email address

Then click on "Create user"

Create your user

GeoSLAM Connect runs as a service and has the ability to modify settings on your computer. You need to create a secure username/password to access the system.

This user will have administrative access to GeoSLAM Connect
